

7th European FWD User Group meeting

Meeting Agenda

24 June 2013

Auditorium R9, Natural Science Building

Gloshaugen Campus, Norwegian University of Science and Technology

13:00	Welcome	Member of EuroFWD Board	
	Deflection measurement systems		
13:05	Comparative GPR, FWD and TSD measurements in Germany	Rolf Rabe	BaST, Germany
13:30	Can we robustly define a dynamic plate test device?	Peter Langdale and Brian Ferne	Transport Research Laboratory, UK
	Application of deflection measurements – Road pavements		
13:55	The role of the FWD in the "SOFICO" campaign in Wallonia, Belgium, by	Pierre Nigro and Carl Van Geem	Walloon Road Directorate and BRRC
14:20	<i>Refreshment break</i>		
14:45	Structural Analysis of Deflection Measurement Asphalt Roads (STRADA)	Christ van Gorp	KOAC-NPC, The Netherlands
15:10	Final Asphalt Design Based on Measured Moduli of Unbound Layers	Susanne Baltzer Per Ullidtz	Danish Road Directorate Consultant
	Application of deflection measurements – Rail trackbeds		
15:35	Railway substructure evaluation using FWD	Simona Fontul	LNEC, Portugal
16:00	Trackbed Evaluation and Design Using FWD Deflections as Performance Indicators	Dr Bachar Hakim	URS Ltd, UK
16:25	Summary and conclusions	Member of EuroFWD Board	
16:30	Finish
